

Dear Nancy and Doug,

Just wanted to drop you both a note to say how much my daughter Leah enjoyed your program. After a lengthy search for a dog grooming program in the area, we were so happy to have found such a nice place and a caring couple to mentor our daughter.

As I mentioned earlier, we stopped in a couple other locations with not so much as a return phone call or anyone even sending us information so that we could talk to someone. When we met with Nancy the first time, she was so welcoming and even though she had a class going on, she let us in to see her facility and talked to us about what she does in her program. My daughter recently received her certification and Nancy has also offered to help get her placed in a position so that she can gain the valuable experience needed to pursue this career path.

We both just want to say thank you so much for all your expertise and help in making this the right choice for our daughter. Keep up the good work and if anyone needs to use us for a referral, please do not hesitate to call.

Much appreciation!!

Leah and Annette
